

HEALTH SEMINAR

REPRODUCTION

**Speaker : Dr. Xavier Schneider (BIT BLM BVSc)
Queensland Veterinary Specialists**

The FBCQLD, would like to invite you to attend our upcoming health seminar on reproduction.

As a club, we are very focused on education, and providing the platforms for both members and non-members to improve their knowledge for the betterment of their chosen breeds and their breeding practices.

Whilst this seminar is being driven by the FBCQLD, it is aimed at canine reproduction in general, and is not breed specific, so all canine fanciers will gain knowledge from such an impressive expert.

Topic 1: TCI vs Surgical Insemination with Fresh, Chilled and Frozen Semen

Topic 2: Sperm Count with Fresh and Frozen Semen

Bookings are Essential! – Booking can be made via email secretaryfbcqld@gmail.com, phone on 0411 032 517 or via show manager.

The FBCQLD will also provide drinks and snacks for all attendees and there will be a Q&A session at the conclusion of the seminar.

Should you have any questions, please contact the Club Secretary, Kelly McClelland, on 0411 032 517 / secretaryfbcqld@gmail.com.

We look forward to seeing you there!
