

Show training proposal for Yuggera Kennel Club.

Show training will be run in 4wk blocks. Training will be \$50 per person for the 4wks to be paid prior to attendance on show manager. Training will be capped at 20ppl and will focus on a key aspect each week. The final week will tie all things learnt together to get the final package and the best out of showing your dog.

Week 1: Introduction to Showing and Stacking your dog – this week will focus on how shows run, when to arrive etc. This will be a small section of the evening and will relate mainly to complete new ppl. The remainder the lesson will focus on stacking your dog.

Week 2: Movement of Dogs – this week will focus on movement. We will go over different ring exercises and how to best get your dog to move for its breed and individual training level.

Week 3: Free Stacking and Presentation: This week will focus on how to teach a dog to free stack/stand naturally. We will focus on revising the stacking from week 1 and how to get the best picture out of your individual dog on the stack.

Week 4: Ring Practice – this final week will work on putting all the prior skills learnt into practice. This week will focus on “pretending” you dog is in an actual ring. We will teach you and your dog to be examined by judge. This last week will also be any finetuning from previous weeks that need more focused practice.

These classes will be run every Monday at 7pm for 4wks then a two-week break. If we get a number of repeat attendances the classes will increase with training and skills as our dogs and handlers do. However, each new 4wks will have a reserve or 10 spots for persons who have not yet attended if we have new people applying.

DATE	WEEK
