It's all about the Family

We are delighted to announce the first membership viewing of a detailed Australian Sires Presentation compiled by Jo Cathie in conjunction with the NBC, showcasing the bloodlines, family type and virtues, total ankc registrations, GSDCA AZ and breed survey results, and other relevant available information around all of our current Australian Sires.

This presentation focuses on delivering as much information as possible in one place, for breeders and judge/surveyors alike to make fully informed breeding decisions and recommendations.

This presentation is not to be missed for the serious breeder/exhibitor and the GSDCQ have the benefit of hosting it's premiere!
