APPRECIATION:

The Lang Lang P. A. & H. Association Inc would like to express their gratitude to the Judges, Stewards,
VCA Representative and all the helpers on the day who helped put this Show together.
To all the Exhibitors a big thank you for your attendance.

Lang Lang Pastoral, Agricultural & Horticultural Association. Inc.

COVID-19 RULES & DECLARATION 2021

EXHIBIT NUMBERS WILL BE EMAILED ON Monday 11th Jan
CATALOGUE WILL BE EMAILED THE MORNING OF THE SHOW

The committee would like to welcome you to the first all Breeds Championship Show for 2021. This has been a huge learning curve for all of us trying to negotiate the ever-changing rules surrounding COVID requirements and we ask that you please read the below information and help make the day a success.

- If you have even mild symptoms please do not attend - stay at home and get tested.
- Be familiar with the COVID Education – Exhibitors, Competitors and Members and COVID Education - Physical Examination of a Dog sections of the Dogs Victoria COVID-19 Update Hub at <https://dogsvictoria.org.au/members>
- Ensure that you bring everything you need for the day, avoid shared surfaces such a pooper scoopers, taps etc, be prepared with enough water for you and your dogs and a supply of poo bags, your own pen or marker and paper
- There will be limited supply of COVID Safe food and coffee available nearby as part of the Agricultural show, please ensure you wear your mask if social distancing cannot be maintained whilst in line. The local shops and cafés are very close by, a list is in the catalogue
- The dog shop will not be attending.
- Maintain Social Distancing of 1.5 metres. This includes 1.5 metres between gazebos. Please follow this strictly as you set up as it will be enforced, a measuring stick will be there and COVID Marshalls will be present at each ring for advice, you will be required to move if set up too closely. Do not set up gazebo's in the "Officials Only" area in the ring plan as they will be removed.
- If you are sharing a gazebo with someone that does not reside at your address you must follow the strict density limits of 1 person per 4sqm, a 3m x 3m gazebo is 9sqm therefore can be shared by 2 people that do not reside together.
- You must carry a mask at all times and wear it whenever necessary eg: in assembly areas and any time you cannot maintain a distance of 1.5m, if you are handling in more than one ring you must wear your mask as you move between rings.
- Exhibitors must enter the ring via the entrance and depart via the exit maintaining physical distancing at all times.
- Ring equipment shall be regularly sanitised during the event.
- Remember to print or write out your exhibit numbers, and that the online catalogue will be sent to all exhibitors free early on the morning. Printed catalogues will not be available.
- Gate will be open at 7am, due to COVID we are limiting time on the grounds. When you arrive, all cars will pass through a checkpoint. If your car number plate and attendees are as already notified to show manager online nothing further is necessary, and this is the quickest way in. However, if there are differences on the day you will need to register attendees at the checkpoint by either using the QR code available around the show by your mobile phone or handing in a "contact tracing attendees record" form previously downloaded and filled in from the COVID Update Hub of the DV website, or signing the attendance list.
- Please leave the show once your dogs have been eliminated to make room for following groups and to limit time on the grounds. Above all please be patient and understanding and ask questions of your COVID Marshalls and Officials if you are unsure...we are depending on you the exhibitors to help us make the day a success and ensure future shows can be held.

Remember that the workers are all volunteers and we absolutely cannot afford any breach of the rules as this will impact not only on Dogs Victoria but also on the Lang Lang AP&H Society. Any mistakes could mean that future shows may suffer further restrictions or even be cancelled, so please follow any instructions from the stewards and marshalls without objection and with good grace. Thank you all for your entries, it has been a long 10 months apart and we look forward to seeing you all again.

***We wish you a successful competition and hope
you enjoy your day with us at the
2021 Lang Lang Agricultural show.
Thank you for your support.***

HEAT STRESS HEAT STROKE & YOUR DOG

WHAT EFFECT DOES SUMMER HEAT HAVE ON DOGS?

When summer arrives, we are told to stay in the cool, drink lots of fluids, and avoid exercising in the heat of the day. Despite our best efforts even people tend to be affected, whether by dehydration, lack of sleep, or reduced appetite.

SO WHAT CAN WE DO TO HELP OUR PETS COPE TOO?

KEEPING COOL

Probably the biggest difference between us and dogs is the different ways in which our bodies work to maintain a stable operating temperature.

For humans, body sweat is used to cool our skin, but dogs can't sweat all over like we do, instead only sweating through glands on the pads of their feet and nose. Dogs instead rely on evaporative cooling from their respiratory system – panting to move air across wet membranes.

This system of cooling has limitations and has important consequences for dogs. Firstly, the evaporation can only occur if the humidity in the air allows it – the higher the humidity the less this system works. So, when in a confined space such as a car, humidity can increase quickly as evaporated water from the dog stays in the air.

The second problem with this sort of cooling is that it can lead to huge losses of body fluids and can alter

the acid-base balance in the dog's blood from the increased amount of oxygen-carbon dioxide exchange in the lungs. These changes are hard to measure because you may not be able to actually see them.

WHAT WILL YOU SEE?

- Heat Stress – panting, salivating, increased heart rate, listlessness, vocalisation/whining
- Heat Stroke – excessive or loud panting, thick saliva, vomiting, diarrhoea, wobbliness, strange behaviour, seizures, collapse, and death

WHAT CAN YOU DO?

- Stop all exercise
- Move to a shaded area or, ideally, into an air-conditioned area
- Provide plenty of cool, fresh water
- Provide plenty of ventilation to move evaporated fluid away and to drop the humidity levels
- Gently cool your dog – they can lay on wet towels, be wiped down or hosed with cool water.

Make sure if you are using wet towels or 'Cooling Coats' that they feel cool to touch and that there is a breeze or ventilation as these methods rely on evaporation for their cooling effects too – if they dry out or there is no ventilation then it's similar to wearing a blanket or rug.

Avoid using iced water on your dog's body as this can cause the blood vessels in the skin to contract, which will slow the cooling process down because the hot blood is no longer coming to the surface where it can lose heat. Iced water can be used on the feet though, and covered ice packs can be placed in between the dog's thighs and in their 'armpits'.

WHAT IF I THINK MY DOG IS MOVING INTO HEAT STROKE?

Heat stroke is more serious as there can be delayed complications due to organ damage. The priority is to lower the body temperature quickly, but care must be taken not to cause hypothermia (too cold) in the process. Any dog with a rectal temperature over 41.6 degrees is considered dangerously hot. These dogs need to be taken to the vet immediately, where cold intravenous fluids and cool water enemas can be done. The vet can also monitor for complications and give medications to aid in preventing some of the consequences of a body temperature that's too high – such as brain swelling and shock.

TRANSPORT IN HOT WEATHER

Avoid transporting your dog in the heat of the day if possible, but if you must, make sure ventilation is at a maximum.

Place the car in the shade, open the windows and doors and start the air-conditioning well before you travel.

You can also use wet towels, ice in open containers, and so on, to lower the temperature where your dog will be.

If your dog has been running around then pay particular attention to cooling it down before you get in the car.

Finally, monitor your dog closely for the longer-term effects of hot weather. You need to be watching food intake, water intake, body weight and coat condition.
