Please contact DOGS VICTORIA if camping at Bulla.

The tracks on this event are 600 metres in length, have three changes of direction, one being an acute. There will be a wooden article and a leather article on the track. ((TCV use obedience Utility wooden articles and a leather wallet). The tracklayer is at the end of the track and is crossed by a person and a dog on two places 30 minutes after the original tracklayer has past. It is a blind start and the time limit is 1 hour.

This track is scored by the judges with points for each part of the test.

For example:- 10 points for the dog indicating the leather article and 15 points for indicating the wooden article. (Not that easy in bush) But no points if neither are found. The dog is given a redirection by the judges, but it will cost you a 40 point minus to your score, a second redirection means the end of the test ☺

So bring out your dogs for some fun and laughter, old or young and enjoy ☺
