To encourage dogs new to SprintDog to participate, releasers may choose to run up the track with their dog or the catcher may come closer than 100m (timing may not be possible for these runs)

What To Bring:

- Number holders or pins for both the releaser and catcher.
- Another handler to be your releaser - this can be organised on the day but you must name someone at check-in (they must be able to handle your dog).
- Water bowl - taps on site
- Food - canteen available
- Crate - Dogs must be crated or safely contained in cars (No tethering permitted) away from the sprint track and out of bounds area, unless warming up away from the trial area or until your number has been called.
