PURPOSE

The purpose of Lure Coursing Sanctioned Events is to preserve and assess the lure coursing skills inherent in Sighthounds and to demonstrate their ability to perform the function for which they were originally developed.

The purpose of Lure Pursuit Sanctioned Events is to provide an opportunity for Non-Sighthounds to participate in lure sport, and to test their fitness, soundness and drive.

Both Lure Coursing and Lure Pursuit test the dog's instinct, physical structure and temperament. Judges assess performance by observing the dog's agility, enthusiasm, endurance, speed and follow through the course.

The sports are a test of the physical capabilities of the dog.

The sports are not a test of scenting ability or trainability.

It is the responsibility of the owner/s to ensure that their dog/s are fit for the activity of lure coursing and lure pursuit.

Lure coursing and lure pursuit is competitive and physically strenuous activity.

Transitional Provisions for the Lure Pursuit Stream

Title names for Non-Sighthound titles have transitioned as follows from the old Coursing Ability stream

- JC to Junior Pursuit (JP)
- CA to Lure Pursuit (LP)
- CAA to Lure Pursuit Advanced (LPA)
- CAX to Lure Pursuit Excellent (LPX)
- CAM to Lure Pursuit Masters (LPM)
- CAM multipliers to LPM multipliers

Dogs who accumulate sufficient passes that have not been used already for a title can use those passes to apply for the Lure Pursuit award equivalent to the Coursing Ability title they would have been entitled to under the old scheme. For example:

- A dog with a CAA title and seven passes will be eligible for an LPX title upon their eighth pass assuming judge criterion is met.
- A dog with a CAM and 7 additional passes, will be eligible for an LPM2 upon their eighth pass assuming judge and field criteria are met.

Existing Coursing Ability titles that have already been awarded will not be converted to the new title but remain on the pedigree as is.

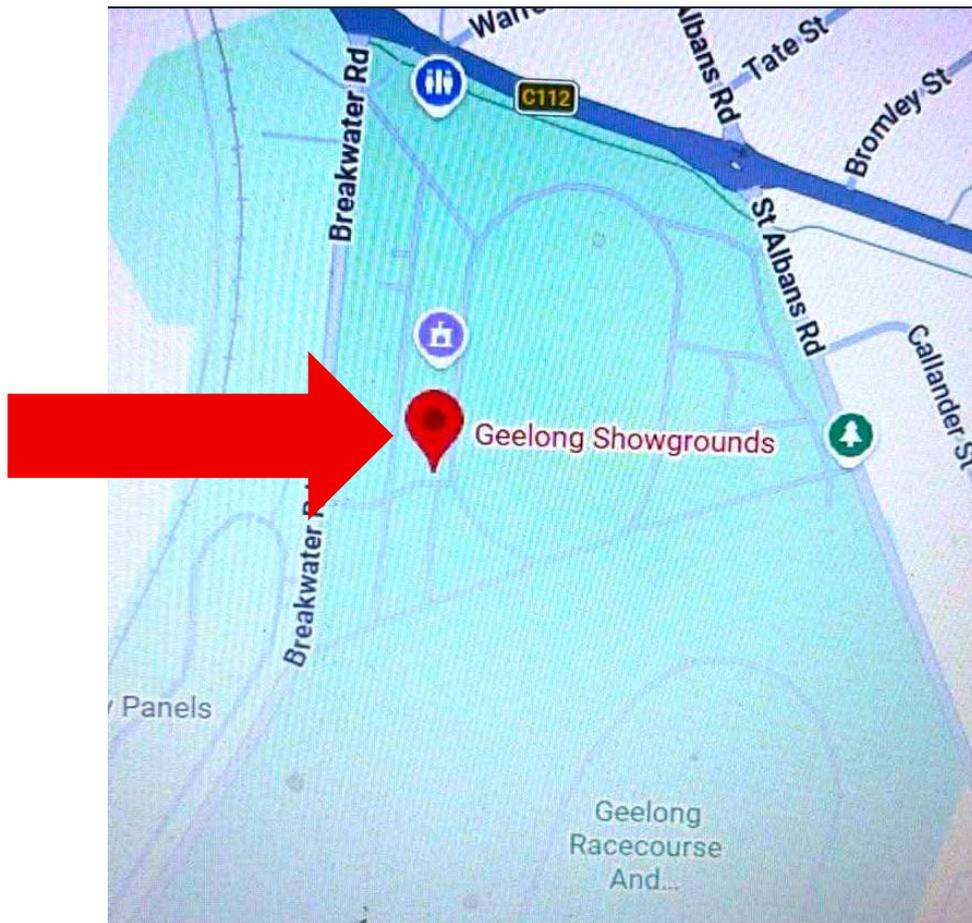

NB - for all awards where a certain number of judges is required, the total may be made up of single judges, or combinations of judges, per the glossary of terms in the rule book.

The **EMMETT Technique** is a safe, unique form of muscle release therapy, which is internationally recognised and effective on both people and animals.

EMMETT Therapy involves the application of light finger pressure at specific points on the body, relieving pain and discomfort, creating postural changes, improving movement, flexibility and overall well-being. These points are referred to as 'Emmett points' and are different to traditional trigger or acupressure points described in any other therapy.

Key features of EMMETT Technique treatments:

- Accurate and fast assessments of body imbalances
- Can be done sitting, lying or standing
- Pressure applied does not need to be firm or painful
- Suitable for babies, during pregnancy, the elderly and everyone in between

Symptoms which may be relieved:

Injuries from sport or accidents

Unbalanced gait or stance

Lead/harness strain

Lower back distress

Inhibited movement

Muscle restrictions

Poor performance

Behavior changes
