SprintDog™ Trial Summary

The purpose of SprintDog™ is to provide all dogs of all breeds and sizes, and their owners an enjoyable, healthy, and fun activity, in which they can participate in.

Dogs must always run singularly in competition.

The dog's time to complete the 100m sprint is converted into speed (km/hr).

Dogs earn points based on their handicapped multiplied by their average speed. Titles are awarded when a dog has accumulated the required number of points.

SprintDog™ is a sport that is designed for fun for dogs of all breeds.

Exhibitors do not compete against each other.

The only competition (other than obtaining a Qualifying Certificate) is for the dog to attempt to better its average run time and beat its personal best.

SprintDog™ is a sport designed to allow a dog the opportunity to run as fast as they can across a 100m distance.

The safety of all dogs is paramount and any incident resulting in a dog colliding with any obstacle, tripping on the ground or any dog that leaves the Catching Pen injured, must be recorded, and submitted to the Affiliate's Member Body.

The element of fun for all participants, should be emphasized at all SprintDog™ trials.

Many exhibitors are new to this sport, and for some, today's event will be their very first SprintDog™ trial.

We kindly ask everyone to show patience, understanding, and courtesy throughout the day, as this will be a brand new experience for many people and dogs.

Let's work together to ensure the trial is welcoming, enjoyable and successful for all.

PRECINCTS OF TRIAL

The entire grassed area 3, the sprint dog run and an exclusion zone of 10 metres around that area.

VETTING

8.30am – 9.30am

Vetting is with check in at the SprintDog™ Assembly area.

All bitches (Including desexed) must be vetted before the official start time of the SprintDog™ Trial. Bitches in season and/or showing a discharge characteristic of being in season shall not be eligible to compete in a SprintDog™ Trial and may not be in the trial precinct.

MEASURING

8.30am – 9.30am

Measuring Station is located at the SprintDog™ Assembly area.

Measuring will be conducted during check-in for dogs that do not have an approved Hight Card or are under the age of two.

If you do not hold a SprintDog™ Height Card or approved Dogs Australia Height card, you must have your dog measured. Dogs not officially measured before the trial starts cannot enter the trial.

Prior to a dog competing in a SprintDog™ Trial for the first time, dogs must have an approved Dogs Australia Height Card, either for SprintDog™ or another Dogs Australia discipline (showing height at the withers) to enable an Affiliate to record the correct handicap for the dog.

Any dog that does not have present a height card to the trial will be recorded as over 45cm, irrespective of their breed or physical appearance.

If a dog has been previously measured for another Dogs Australia discipline and presents a Dogs Australia approved Height Card which states the height of the dog at the withers, upon presentation of the Height Card, does not need to be remeasured unless Officials deem it necessary.

New Height Card - Complete both sides of the SprintDog™ Height Card form prior to going to the measuring area. Cost - \$5.00 per dog. Cash payable on the day. The SprintDog™ Height Card fee is charged by SprintDog™ Committee. Monies paid belong to the Dogs Victoria SprintDog™ Committee and not the Cavalier King Charles Spaniel Club of Victoria Inc.

K9 Grooming & Emmett Therapy

Emmett Therapy Certified Practitioner

Yvonne Campbell
0402 704 734

The **EMMETT Technique** is a safe, unique form of muscle release therapy, which is internationally recognised and effective on both people and animals.

EMMETT Therapy involves the application of light finger pressure at specific points on the body, relieving pain and discomfort, creating postural changes, improving movement, flexibility and overall well-being. These points are referred to as 'Emmett points' and are different to traditional trigger or acupuncture points described in any other therapy.

Key features of EMMETT Technique treatments:

- Accurate and fast assessments of body imbalances
- Can be done sitting, lying or standing
- Pressure applied does not need to be firm or painful
- Suitable for babies, during pregnancy, the elderly and everyone in between

Symptoms which may be relieved:

Injuries from sport or accidents

Unbalanced gait or stance

Lead/harness strain

Lower back distress

Inhibited movement

Muscle restrictions

Poor performance

Behavior changes
